- Why I'm in Ministry:** It took many years for me to understand God's call in my life to music ministry. After serving bi-vocationally for several years, I clearly came to realize that God was leading me to serve Him through the ministry of music. I cannot think of anything else that I would have rather done. I am amazed everyday at the transforming power of the Word of God, especially as it is set to music. I've seen lives changed through the testimony of a song. Time and again, I've watched saints who were very near death join me in singing the words of a hymn of praise, even when they could hardly speak an intelligible word. And what really excites me is to realize that we will be praising the Lamb of God through all eternity! That's what keeps me in ministry!
